

# The Curriculum: Senior School

## Year 10

Year 10 studies are integrated into the Senior School Curriculum.

All year 10 students study:

- English or ESL
- Science
- Mathematics
- Pastoral
- Humanities
- Physical Education/Health

Students also select from a wide range of semester length electives. Many year 10 students have advanced sufficiently to commence VCE in some studies, taking courses which blend year 10 Units with VCE Units 1 and 2. Aside from providing more interest and challenge for the students, this allows the completion of year 12 Units 3 and 4 during year 11, earning bonus points in the ATAR score which is finally achieved.

Following are the elective units offered to year 10 students in 2011.

(Subjects in the Arts and Technology and Music are each studied for one semester)

- Advanced Photography
- **Art 1:**
  - 2D Art
  - Drawing, Painting & Printmaking
